Blue Shield PPO's Treatment Cost Estimator

Your clients' Blue Shield of California PPO members have a powerful tool on their side when they are facing important treatment decisions. Our **Treatment Cost Estimator** can help them compare their out-of-pocket costs, total treatment costs, and more – instantly!

Our enhanced treatment cost estimator tool makes our PPO plans – including high-deductible plans that are compatible with HSAs and FSAs – even more attractive to your price-conscious clients.

Making the right choice is easier!

With the Treatment Cost Estimator, members can get estimates for more than 400 of the most common treatments and services by network providers. These estimates reflect claims data gathered from our provider networks, and member out-of-pocket estimates are based on current plan, deductible, and coinsurance balances.

See for yourself

We're making it easier for your PPO clients' employees to find the information they need when they need it.

Our Treatment Cost Estimator gives your clients one more reason to select Blue Shield PPO plans with confidence!
