

Submit and track Blue Shield of California medical authorizations online in AuthAccel

AuthAccel provides an end-to-end solution for completing, submitting, tracking, and receiving determinations for Blue Shield of California medical authorizations. The system is available 24/7 from the *Provider Connection* website after login (blueshieldca.com/provider).

Any medical authorization currently submitted to Blue Shield of California can be submitted online in AuthAccel. The system also displays the status of all Blue Shield and Blue Shield Promise Health Plan authorization requests.

Why use AuthAccel?

FOR BLUE SHIELD COMMERCIAL AND FEDERAL EMPLOYEE PROGRAM (FEP) PROVIDERS:

- **Provides immediate authorization for select medical services that fall within 61 medical policies.** (See list on the next page.) Approval is determined by your answers to code-specific clinical questionnaires, which on average take less than 3 minutes to complete.
- **Conveys when medical authorization is or is not required by Blue Shield, or when it is delegated.** No need to call Blue Shield.
- **Offers documentation when authorization is not required by Blue Shield or approval belongs to another entity.** An inquiry number and downloadable confirmation letter are automatically generated after you submit the authorization.

FOR ALL BLUE SHIELD PROVIDERS:

- **Integrates member eligibility and provider status into the process.** No need to call for eligibility or check online, plus servicing provider and facility status is clearly displayed so it is easy to select within the member's network.
- **Allows attachment of clinical documentation to the authorization.** No faxing required and nothing gets lost or separated from your request. Clinicals can also be attached to an open request after submission – great for lack of information (LOI) situations.
- **Gathers all authorization information in one location.** AuthAccel displays high-level request details in an easy-to-view-and-search table, plus drill-down by authorization number for decisions by code and related correspondence.

If you have a Provider Connection username and login, start today! Click the [Authorizations](#) tab, choose *Medical authorization* or *Medical authorization status* from the blue navigation bar, select your Tax ID and click *AuthAccel*. The system will open in a new window.

How-to instructions for submitting and viewing authorizations are provided in the right-hand column on each Provider Connection AuthAccel launch page.

Next page: List of commercial medical policies as of April 2021 containing codes eligible for immediate approval when submitted in AuthAccel and based on qualifying provider responses to short, code-specific clinical questionnaires. Blue Shield reserves the right to add/remove medical policies on this list.

1. Ambulatory Event Monitors and Mobile Cardiac Outpatient Telemetry
2. Assays of Genetic Expression in Tumor Tissue as a Technique to Determine Prognosis in Patients with Breast Cancer
3. Auditory Brainstem Implant
4. Autografts and Allografts in the Treatment of Focal Articular Cartilage Lesions
5. Autologous Chondrocyte Implantation for Focal Articular Cartilage Lesions
6. Balloon Ostial Dilatation for Treatment of Chronic Sinusitis
7. Bio-Engineered Skin and Soft Tissue Substitutes
8. Biventricular Pacemakers (Cardiac Resynchronization Therapy) for the Treatment of Heart Failure
9. Blepharoplasty, Blepharoptosis Repair, (Levator Resection) and Brow Lift (Repair of Brow Ptosis)
10. Breast Implant Management
11. Cellular Immunotherapy for Prostate Cancer
12. Charged-Particle (Proton or Helium) Radiation Therapy
13. Continuous Passive Motion in the Home Setting
14. Cryosurgical Ablation of Miscellaneous Solid Tumors Other Than Liver, Prostate, or Dermatologic Tumors
15. Dental Anesthesia
16. Diagnosis and Medical Management of Obstructive Sleep Apnea Syndrome
17. Diagnosis and Medical Management of Obstructive Sleep Apnea Syndrome (FEP)
