

How to Submit Medical Authorizations Online with AuthAccel

Agenda

- 1. AuthAccel overview for medical requests
- 2. AuthAccel demonstration: Submitting a commercial request
- View authorization status: How to search for an open or closed request
- Search for a requesting provider when you have 20+ Blue Shield Provider IDs attached to your Tax ID
- 5. Summary and resources
- 6. Q&A

	standard	Expedited

AuthAccel is Blue Shield of California's medical and pharmacy online authorization system available 24/7 from our Provider Connection website.

AuthAccel can now consume all Blue Shield Provider IDs (PINs) at any one launch. The previous PIN limitation of 2,000 has been removed.

Providers of any size can now use AuthAccel to submit and view medical authorizations.

Submitting and viewing authorizations in AuthAccel

The following can be submitted in AuthAccel:

- Medical or pharmacy authorizations that you currently submit to Blue Shield of California
- Medical authorizations that you currently submit to Blue Shield Promise Health Plan

The system also shows the status of all requests submitted for Blue Shield and Blue Shield Promise members, including those submitted via fax, phone, etc.

	Blue Shield Commercial/FEP	Blue Shield Medicare	Blue Shield Promise Medi-Cal & Cal MediConnect
Submit medical	Y	Y	Y
View medical	Y	Y	Y
Submit pharmacy	Y	Y	N
View pharmacy	Y	Y	Y

Note, AuthAccel functionality differs by plan type. This training covers functionality related to submitting and viewing medical authorizations for Commercial/FEP members, but we will lightly touch on Medicare, Medi-Cal and Cal MediConnect.

Key medical auth functionality for Commercial/FEP members*

- 1. Notification provided in system when authorization: A) is or is not required by Blue Shield; and B) is delegated to another approver
- 2. Ability to submit an inquiry when authorization isn't required or when approverisn't Blue Shield.
- 3. Potential for immediate approval for select medical services when requests are submitted via AuthAccel specific codes in 60 Commercial and one (1) FEP medical policies are eligible. Immediate approval is based on medical documentation that you provide.

* This functionality is not available in AuthAccel for Medicare, Medi-Cal or Cal MediConnect authorizations. Requests for these plan types will pend for review.

Prescreening for Commercial/FEP requests*

To determine if authorization is required by Blue Shield or delegated, launch AuthAccel and submit the authorization.

No auth required

For requests approved by Blue Shield, determination of whether authorization is required is made **after entry of the procedure code(s)**.

Delegation

Depending on the member's plan, you may receive a delegation message with the name and contact information for the appropriate authorizer when you:

- Conduct a member search
- Complete the *Request Type and/or the *Place of Service fields
- Select the Inpatient Admit Type
- Enter the primary diagnosis code
- Enter one or more procedure codes

^{*} This functionality is not available in AuthAccel for Medicare, Medi-Cal or Cal MediConnect authorizations. Requests for these plan types will pend for review.

System-generated inquiry for commercial/FEP requests*

- When the authorization is 1) delegated or 2) not required by Blue Shield, the system will change the request to an inquiry.
 - An inquiry is simply documentation of the above from Blue Shield.
- Complete the process and click Submit to record the inquiry in AuthAccel and print a copy.
 - If delegated, you must then submit the request to the delegated entity.

- <u>Submit a pharmacy authorization</u> (Pharmacy authorizations cannot be submitted in AuthAccel for Medi-Cal or Cal MediConnect members.)
- <u>View pharmacy authorizations status</u> (Status of pharmacy requests can be viewed in AuthAccel for all plan types.)

Summary and resources

AuthAccel benefits round-up for medical requests *

Providers of any size can now use AuthAccel to submit and view medical authorizations.

	Provides the potential of immediate authorization for select medical services
Y	that fall within 61 medical policies. (See full list in appendix.)

- \hookrightarrow Conveys when medical authorization is or is not required by Blue Shield, or when it is delegated.
- Offers documentation when authorization is not required by Blue Shield or approval belongs to another entity.
- Integrates member eligibility and provider status into the process.
- Allows direct attachment of clinical documentation to the authorization.

* First three benefits apply to Commercial/FEP requests. All six benefits apply to Commercial/FEP and Medicare, Medi-Cal, and Cal MediConnect requests.

- 37. Knee Arthroplasty for Adults
- 38. Knee Arthroscopy
- 39. Knee Braces
- 40. Magnetoencephalography/Magnetic Source Imaging
- 41. Microprocessor-Controlled Prostheses for the Lower Limb
- 42. Microwave and Locoregional Laser Tumor Ablation
- 43. Negative Pressure Wound Therapy in the Outpatient Setting
- 44. Noninvasive Techniques for the Evaluation and Monitoring of Patients with Chronic Liver Disease
- 45. Orthognathic Surgery
- 46. Panniculectomy, Abdominoplasty, and Surgical Mgmt. of Diastasis Recti
- 47. Partial Thickness Rotator Cuff Tears and Acromioplasty/Subacromial Decompression
- 48. Radioembolization for Primary and Metastatic Tumors of the Liver
- 49. Radiofrequency Ablation of Primary or Metastatic Liver Tumors
- 50. Reduction M ammaplasty for Breast-Related Symptoms
- 51. Surgical Treatment of:
 - Femoroacetabular Impingement
 - Gynecomastia
 - Snoring and Obstructive Sleep Apnea Syndrome
- 54. Total Hip Arthroplasty for Adults
- 55. Transcranial Magnetic Stimulation as a Treatment of Depression and Other Psychiatric/Neurologic
- 56. Treatment of Hyperhidrosis
- 57. Treatment of Varicose Veins/Venous Insufficiency
- 58. Wearable Cardioverter Defibrillators
- 59. Whole Exome and Whole Genome Sequencing for Diagnosis of Genetic Disorders
- 60. Whole Gland Cryoablation of Prostate Cancer
- 61. Wireless Capsule Endoscopy to Diagnose Disorders of the Small Bowel, Esophagus, and Colon
