<sup>\*</sup> The principal business address means the principal business address registered with the Secretary of the State of California. If a principal business address is not registered with the State or is registered solely for purposes of service of process and is not a substantial worksite for the group's business, then provide the business address within the State where the greatest number of employees work.

#### 1B GROUP SIZE AND OUT OF STATE EMPLOYEES

Use the method for counting full time employees (FTE) and FTE Equivalents described in Section 4980H(c)(2) of the Internal Revenue Code to determine if the group is a "small employer" under the Small Group Act. A group must employ 1-100 total FTEs, including FTE Equivalents, (not including sole proprietors, partners of a partnership, their spouses or legal domestic partners), to be eligible for a small group health plan at issuance and renewal, in addition to meeting any applicable underwriting criteria such as contribution and participation requirements.

In California, the full-time and full-time equivalent employee definition and count is used to determine the size of the group and whether the majority of employees are employed in California. It differs from the "eligible employee" definition and count, which is primarily used to determine which employees are eligible to enroll in coverage and whether the group is meeting the participation requirement.

#### To calculate the number of FTEs and FTE Equivalents:

- FTE: an FTE is an employee who has on average at least 30 hours of service per week, or at least 130 hours of service total, during a calendar month.
- FTE Equivalent: this calculation is to account for employees who average fewer than 30 hours of service per week, who, in combination, are counted as the equivalent of a full-time employee.

Total current FTE and FTE Equivalent  Total current FTE and FTE Equivalent employed out of state		If current count is larger than 100, how many employed in prior calendar quarter?
