

This list reflects medications designated as specialty drugs under the pharmacy benefit. Most specialty drugs require prior authorization for medical necessity. If covered, specialty drugs cannot be obtained from a network retail pharmacy and must be obtained from a Blue Shield Network Specialty Pharmacy. Some drugs may not be available for distribution through the Network Specialty Pharmacy in which case it may be obtained through a non-network specialty pharmacy that carries it.

A Blue Shield Network Specialty Pharmacy may be located at blueshieldca.com/wellness/drugs/specialty-pharmacy.

To see if this specialty drug designation applies to your coverage, please check your *Evidence of Coverage* or *Certificate of Insurance/Policy*. You may also call the customer service phone number listed on your Blue Shield ID card.

NOTE: Drugs administered by a healthcare professional (not self-administered) or provided as part of a home health or home infusion service are not listed in this document. Coverage may be provided as part of a medical service, subject to applicable deductibles and copays.
