

**isavuconazonium (Cresemba)****Medical Benefit Drug Policy****Place of Service**

Infusion Center Administration

Office Administration

Outpatient Facility Administration

Home Infusion Administration

Hospital Administration

**Drug Details****USP Category:** ANTIFUNGALS**Mechanism of Action:** Isavuconazonium sulfate is a prodrug that is rapidly hydrolyzed in the blood to active isavuconazole.**HCPCS:**

J3490:Unclassified drugs

**How Supplied:**

372 mg of isavuconazonium sulfate (equivalent to 200 mg of isavuconazole) single-dose vial

**Condition(s) listed in policy** *(see coverage criteria for details)*

- Invasive Aspergillosis
- Invasive Mucormycosis

Any condition not listed in this policy requires a review to confirm it is medically necessary. For conditions that have not been approved for intended use by the Food and Drug Administration (i.e., off-label use), the criteria outlined in the California Code of Regulations (CCR), Title 22, Section 51303 and 51313 must be met.

**Special Instructions and Pertinent Information**

Provider must submit documentation (such as office chart notes, lab results or other clinical information) to ensure the member has met all medical necessity requirements.

The member's specific benefit may impact drug coverage. Other utilization management processes, and/or legal restrictions may take precedence over the application of this clinical criteria.

**Coverage Criteria****The following condition(s) require Prior Authorization/Preservice.****Invasive Aspergillosis****Meets medical necessity if all the following are met:**

1. Culture positive for *Aspergillus sp*
2. Medical rationale why voriconazole cannot be used

**Covered Doses:**

Up to 372 mg given intravenously every 8 hours for 6 doses followed by 372 mg given daily beginning 12 to 24 hours following the 6th dose

**Coverage Period:**

Up to 3 months and then assess for continued efficacy and patient is unable to switch to oral formulation.

**ICD-10:**

B44.0-B44.2, B44.7, B44.81, B44.89, B44.9, B48.4

**Invasive Mucormycosis**

**Meets medical necessity if all the following are met:**

1. Meets one of the following (a or b):
  - a. Culture positive for mucormycosis pathogens (e.g. *Rhizopus*, *Rhizomucor*, *Lichtheimia*, *Mucormycetes*)
  - b. Being prescribed or recommended by an infectious disease specialist

**Covered Doses:**

Up to 372 mg given intravenously every 8 hours for 6 doses followed by 372 mg given daily beginning 12 to 24 hours following the 6th dose

**Coverage Period:**

Up to 3 months and then assess for continued efficacy and patient is unable to switch to oral formulation.

**ICD-10:**

B46.0 - B46.5, B46.8, B46.9
