In accordance with regulatory requirements, Blue Shield reports and publishes a maximum number of in-person service locations for practitioners:

Primary Care Physicians (PCPs)

One practitioner may not be listed as a primary care physician (PCP) in more than seven (7) in-person service location addresses across the entire network. This requirement applies even if the practitioner is listed as a PCP on rosters for multiple, separately contracted IPA/medical groups. The aggregated total for providing in-person services as a PCP must not exceed seven (7) service locations in Blue Shield's entire provider directory.

Physician Specialists

One physician specialist may not be listed as a specialist in more than eleven (11) in-person service location addresses across the entire network. This requirement applies even if the practitioner is listed as a specialist on rosters for multiple, separately contracted IPA/medical groups. The aggregated total for providing in-person services as a specialist must not exceed eleven (11) service locations in Blue Shield's entire provider directory. The above limitation requirements only apply to in-person service locations for each PCP or specialist practitioner.

No limits apply to locations where ONLY telehealth or virtual care services ONLY are provided by the PCP or specialist. If the practitioner also provides services to Blue Shield members in person at the location, however, it will be counted as an in-person services location.
