

# Working together for members

## Blue Shield of California and Aspire Health Plan

Blue Shield of California and Aspire Health Plan have teamed up to work toward a better healthcare experience. We're working together to create better coordination and communication among our members' health plan, doctors, and hospitals.

Together, we're helping to provide members with clinical care that is more personalized and easier to access.

### About Aspire Health Plan

At Aspire Health, we are committed to the health and wellness of our Monterey County community. As a provider-owned network, our provider partners **Montage Health** and **Salinas Valley Memorial Healthcare System** created Aspire Health to improve access to affordable, high-quality, compassionate health care across the county. We are dedicated to creating a healthier population, improving patient experience, and lowering the cost of care in Monterey.

As a comprehensive health care network, we are serving the whole person, and advancing best practices. Aspire is committed to improving the health of Monterey County residents through world-class care and community investment to transform care for this generation and beyond.
